## Learn About In-Demand Nationally Portable Manufacturing Credentials

One of the five hallmarks of the Ohio Manufacturing Workforce Partnership (OMWP) earn-and-learn program is **Obtainment of a Nationally-Portable Industry Recognized Credential**. There are several types of credentials that meet this requirement.

### TYPES OF CREDENTIALS

- **CERTIFICATION:** A nationally-portable, industry-recognized credential awarded to individuals who pass a standardized assessment that recognizes his or her knowledge, skill, or competency in a particular specialty.
- **CERTIFICATE:** Nationally portable, industry-recognized **CERTIFICATES** are issued by credentialing entities/authorities with faculty training specific to the certificate
- **REGISTERED APPRENTICESHIP CERTIFICATE:** Registered Apprenticeship programs are awarded a Certificate of Completion from the U.S. Department of Labor (DOL) or the DOL-recognized State Apprenticeship Agency. Ohio has a State Apprenticeship Agency.
- **EDUCATIONAL CREDENTIALS:** College credit-bearing short-term (e.g. one-year) academic certificates (such as post-secondary manufacturing certificate programs that usually require full-time, six-month to one-year completion of required courses or their part-time equivalent,) or AA degrees, and BA or BS degrees.

The primary purpose of this tool is to help sector partnerships, manufacturers, and educators quickly and easily identify the **Industry Recognized Certifications and Certificates** that best align with their upskilling needs.

Nationally portable credentials help businesses clearly communicate their needs and expectations with students and educators. They also give job seekers and employees ways to demonstrate marketable competencies. Credentials provide an objective way for:

- Students to validate the skills and knowledge they can bring to the job;
- Educational providers to establish the value of their product; and
- Employers to have a level of understanding about the skill level of an individual before hiring them.

Embedding nationally portable credentials within work-based learning programs benefits the student, the educational provider, and the employer.

## HOW TO USE THIS TOOL

On the pages that follow, you will find summaries of some of the most commonly accepted and recognized manufacturing-related credentials in Ohio. Many of these credentials are approved by the Ohio Department of Education (ODE) for points towards graduation, recognized by the Ohio Department of Higher Education (ODHE), and/or eligible for Ohio TechCred funding (through the Office of Workforce Transformation).

Credentials are organized into four in-demand career pathways: Machining, Production, Maintenance, and Welding. You will also see Industry 4.0 credentials in each section. Within each of the four pathways, you'll find summaries of the most popular credentials along with links to more information. Scan these summaries to see what competencies and skills the credential assesses, and which best matches the skills and abilities you want your trainees to master. Note that the Production section includes credentials that may also relate to other pathways. If you are looking for foundational or broadly applied skills, take a look there.

**Get Involved!** Email [workforce@ohiomfg.com](mailto:workforce@ohiomfg.com) to connect with your region's sector partnership.

The Ohio Manufacturing Workforce Partnership (OMWP) is a collaboration of The Ohio Manufacturers' Association (OMA) and Ohio TechNet (OTN). Established to address Ohio's manufacturing workforce shortage, the OMWP works directly with a statewide network of manufacturing industry sector partnerships, and is focused on meeting local employment and skill needs.

This workforce product was funded by a grant awarded by the U.S. Department of Labor's Employment and Training Administration. The product was created by the recipient and does not necessarily reflect the official position of the U.S. Department of Labor. The Department of Labor makes no guarantees, warranties, or assurances of any kind, express or implied, with respect to such information, including any information on linked sites and including, but not limited to, accuracy of the information or its completeness, timeliness, usefulness, adequacy, continued availability, or ownership. This product is copyrighted by the institution that created it.

## Machining Pathway

Make precision parts using machine tools such as lathes, milling machines and grinders using computer-controlled (CNC) machines and manual equipment. Responsibilities include fabricating, modifying or repairing mechanical instruments, applying knowledge of mechanics, mathematics, metal properties, layout, and machining procedures.

### COMMON CREDENTIALS:

#### JOB PLANNING, BENCHWORK & LAYOUT

<b>Credentialing body</b>	<u>NIMS</u>
<b>Skill level</b>	Entry

MAINTENANCE PIPING	
<b>Credentialing body</b>	<u>NIMS</u>
<b>Skill level</b>	Entry
<b>Competencies</b>	Piping system safety rules, Interpret basic piping schematics, Identification and selection of correct material, Measurement and preparation, Piping systems installation
<b>Cost</b>	<a href="https://www.nims-skills.org/credentialing-fees">https://www.nims-skills.org/credentialing-fees</a>
<b>More information</b>	<a href="https://www.nims-skills.org/credentials/maintenance-piping">https://www.nims-skills.org/credentials/maintenance-piping</a>
<b>Accepted by</b>	ODE, ODHE, TechCred

## Welding Pathway

Fabricate and assemble metal structures and equipment through the use of welders, cutters, shapers and measuring tools.

### COMMON CREDENTIALS:

CERTIFIED WELDER	
<b>Credentialing body</b>	AWS
<b>Skill level</b>	Entry
<b>Competencies</b>	Procedures used in structural steel, petroleum pipelines, sheet metal, and chemical refinery welding industries. Available in multiple areas including: SMAW Plate, GMAW Plate, FCAW Plate, GTAW Plate, SMAW Pipe, GTAW Pipe (Carbon Steel/Stainless Steel), GMAW/SMAW Pipe (Carbon Steel or Chrome PWHT)
<b>Cost</b>	<a href="https://www.aws.org/library/doclib/2236-PRICE-LIST-202001.pdf">https://www.aws.org/library/doclib/2236-PRICE-LIST-202001.pdf</a>
<b>More information</b>	<a href="https://www.aws.org/certification/page/certified-welder-program">https://www.aws.org/certification/page/certified-welder-program</a>
<b>Accepted by</b>	ODE, ODHE, TechCred

CERTIFIED WELDING ENGINEER	
<b>Credentialing body</b>	AWS
<b>Skill level</b>	Advanced
<b>Competencies</b>	Basic science fundamentals, Strength of materials, Heat transfer and fluid mechanics, NDE/Weld discontinuities, Welding heat sources and arc physics, Welding processes and controls, Welding and joining metallurgy, Weld design, Brazing and soldering
<b>Cost</b>	<a href="https://www.aws.org/library/doclib/2236-PRICE-LIST-202001.pdf">https://www.aws.org/library/doclib/2236-PRICE-LIST-202001.pdf</a>
<b>More information</b>	<a href="https://www.aws.org/certification/detail/certified-welding-engineer">https://www.aws.org/certification/detail/certified-welding-engineer</a>
<b>Accepted by</b>	ODHE

CERTIFIED WELDING INSPECTOR	
<b>Credentialing body</b>	AWS
<b>Skill level</b>	Advanced
<b>Competencies</b>	Prepare reports, Understand the fundamentals of quality welding procedures and quality audits/surveillance, Verify material compliance, Verify welding equipment appropriateness and procedure qualification compliance, perform visual examinations, review welding inspection reports, implement weld inspection quality assurance plans, develop visual inspection training
<b>Cost</b>	<a href="https://www.aws.org/library/doclib/2236-PRICE-LIST-202001.pdf">https://www.aws.org/library/doclib/2236-PRICE-LIST-202001.pdf</a>
<b>More information</b>	<a href="https://www.aws.org/certification/page/certified-welding-inspector-2">https://www.aws.org/certification/page/certified-welding-inspector-2</a>
<b>Accepted by</b>	ODE, ODHE, TechCred

## Welding Pathway

CERTIFIED WELDING FABRICATOR	
<b>Credentialing body</b>	<u>AWS</u>
<b>Skill level</b>	Advanced
<b>Competencies</b>	Document control, Material control, Welding, Inspection, Nonconformance systems, Measuring & testing equipment, Internal quality audits
<b>Cost</b>	<a href="https://www.aws.org/library/doclib/2236-PRICE-LIST-202001.pdf">https://www.aws.org/library/doclib/2236-PRICE-LIST-202001.pdf</a>
<b>More information</b>	<a href="https://www.aws.org/certification/certifiedweldingfabricator">https://www.aws.org/certification/certifiedweldingfabricator</a>
<b>Accepted by</b>	ODHE

CERTIFIED ROBOTIC ARC WELDING OPERATOR/TECHNICIAN	
<b>Credentialing body</b>	<u>AWS</u>
<b>Skill level</b>	Advanced
<b>Competencies</b>	Weld equipment setup, Welding processes, Weld examination, Symbols, Safety, Destructive testing, Conversion and Calculations, Robot programming, Welding procedures, Programming logic, Kinematic concepts, Robotic arc weld cell, Components
<b>Cost</b>	<a href="https://www.aws.org/library/doclib/2236-PRICE-LIST-202001.pdf">https://www.aws.org/library/doclib/2236-PRICE-LIST-202001.pdf</a>
<b>More information</b>	<a href="https://www.aws.org/certification/detail/certified-robotic-arc-welding">https://www.aws.org/certification/detail/certified-robotic-arc-welding</a>
<b>Accepted by</b>	ODE, ODHE, TechCred
